Mrs. H. G. McDavid and her sister, Mrs. W. A. Scott, and niece, Miss Helen Scott, motored to Mount Dora yesterday and spent the day pleasantly in that pretty village.

Mr. D. E. McIver, after a pleasant and beneficial visit with relatives in New York state and South Carolina, is home again and his many friends are glad to have him back.

Mr. Douglass Smith, formerly an Ocala boy, but who for some years has been in Tennessee, arrived in town yesterday for a short visit with his sister, Miss Rena Smith.

Mr. T. A. Cobb returned to the city this afternoon after a summer spent at Newberry, S. C., with his daughter. Mr. Cobb will spend the winter in the city at the home of his son, Mr. A. C. Cobb and family.

Sandwiches and coffee every day. Carter's Bakery. 18-3t

Mrs. Weller Carmichael is entertaining at her home Mrs. C. Green of Lakeland, who made her home in Ocala for a few years several years ago, and the friends she then made are giving her a cordial welcome.

In the county judge's court, Saturday, Richard Jones and Jim Redmond were both tried for moonshining. They were found guilty and each was assessed \$200 and costs or six months in the county jail.

Tax Collector Hughes of Sumter county, was in town yesterday, visiting Marion's tax collector, Mr. W. W. Stripling. Mr. Hughes is secretary and treasurer of the state tax collector's association, which meets here next month.

Mrs. Harry Borland's friends will regret to learn of the recent loss that has come to her family in the death of her sister, Miss Frances C. Parry of Pittsburgh, who died last Saturday in that city after a short illness. Miss Parry was an exceptionally brilliant and highly esteemed young woman, beloved and most popular with a large circle of friends and admirers in Pittsburgh. She was a graduate of Smith College, also a graduate of the University of Chicago with an M. A. degree, and up to the time of her illness she was at the head of the English department of the Carnegie Institute of Pittsburgh, one of the most exalted positions that can be held in any college. Miss Parry's death is a great loss to the intellectual world and Mrs. Borland in her distress has the deepest sympathy of her host of friends in Ocala.

The special prize offered by E. C. Jordan & Company to be awarded at the Marion County Fair, is arousing much interest among the ladies. It is a beautiful \$100 china closet, and is offered for the best domestic and culinary exhibit. It is safe to say that there will be a large number of entries for this beautiful prize, for it is indeed well worth striving for, and the fine cook of Marion county will produce a display of goodies that will make one's mouth water, to say nothing of the other products of the kitchen that will show the skill of the exhibitors. The second prize in this contest is a beautiful rocking chair offered by Theus Bros.

## YOUR RED CROSS

The American Red Cross, by its Congressional charter, is officially designated:

To furnish volunteer aid to the sick and wounded of armies in time of war, in accordance with the conventions of Geneva.

To act in matters of voluntary relief and as a medium of communication between the American people and their Army and Navy.

To continue and carry on a system of national and international relief in time of peace and to apply the same in mitigating the sufferings caused by pestilence, famine, fire, floods and other great calamities.

To devise and carry on measures for preventing these causes of suffering.

## Feeding the Bedridden.

Administering liquid food or medicine to persons lying on their backs in bed is difficult, even for a trained nurse. A novel hospital drinking glass overcomes this difficulty, says Popular Mechanics Magazine. The lower portion of the vessel is similar in shape to an ordinary tumbler. On top of this is a tapering hood, which is provided with an eccentrically placed, slanting opening. If not more than half filled the device can be held in a nearly horizontal position without spilling the contents.

## How Fish Eat.

When a codfish eats it takes an oyster in its mouth, cracks the shell, digests the meat, and ejects the shell. Crabs crack the shells of their smaller neighbors and suck out their meat. This accounts for the mounds of shells which are found beneath the waves. And, as further illustrating the constant destruction going on in the oceans' depth, it is said that if a ship sinks at sea it will be eaten by the fish with the exception of its metal portions.

## Simple Explanation.

Why is it that fishes make no dis-

turbance when swimming through the water, although there is a rushing noise when a stone is flung in? This is explained by the fact that, in the latter case, it is the filling of the cavity that is made, rather than the mere impact, which causes the noise, whereas the body of the fish is so shaped that when it moves through the water it leaves no such cavity behind it and therefore there is no disturbance.

## That Busy Stork.

Elizabeth is a clever, observing little girl. A few months ago a baby brother came into the family, and it was duly explained to her that the stork brought it. On her birthday, when she was admitted to the room where her gifts were displayed, she spied a large doll sitting on a little chair. She regarded it attentively for a moment, then remarked as if to herself: "If that stork hasn't been here again!"

## Pir and Candle Auction.

The many centuries old custom of letting, "Poor Folk's Closes" every fifth year has again been observed at Old Bollingbroke, where Henry IV. was born in 1393. The biddings cease when a pin inserted in a burning candle falls. The field, three acres, was let for \$12 10s. For about twenty years it has not made more than \$5.—London Daily Mail.

## "Tempus Fugit."

The teacher gave Margaret some yarn and cardboard, and after showing her how to work a design, told her to finish it at home. When she came to school the next day with the half-finished work, the teacher asked her why she had not finished it; if she had run out of yarn. "Oh, no," answered Margaret; "I just run out of time."

## Reasons for Using Stone.

The forest rangers on Mount Rainier have a house on top of the mountain built of stone, whereas under usual conditions it is the custom to construct these buildings of wood. The proximity of the stone and the scarcity of wood and the difficulty of obtaining it from the lower levels is responsible for this departure.

## Superstition Concerning Diamonds.

The losing of a diamond is considered, apart from its material value, an omen of mishap. To be efficacious as a talisman the diamond should be given freely, and "never sold, never lent, never coveted, and never taken by fraud or force."

## A Failure in Life.

A sad story reaches us from Southwest London. It appears that a girl of twenty attempted suicide because she realized she was too old to write either a popular novel or a book of poems.—From Punch, London.

## Redeemed Early Failure.

Thomas Chambers, the noted missionary and preacher, was the despair of his school teacher. Another famous preacher, Isaac Barrow, was so slow and quarrelsome that he was counted a disgrace to the school.

## Given the Leavings.

At the close of formal dinners in Japan the guests are presented with any meat they may have failed to eat. However great or small the quantity they may have left, it is carefully wrapped up, and they are expected to take it home.—Brooklyn Eagle.

## Nutmeg Once a Perfume.

In olden times the ladies in England used nutmegs as a perfume. The nutmegs were set in silver and ornamented with pearls and precious stones, and hung from a lady's belt like a modern scent-bottle.

## RED CROSS ACTIVE IN DISASTER RELIEF

When disaster hits a community—fire, flood, earthquake, explosion, bad wreck or tornado—the American Red Cross can be depended upon to follow right at its heels with help for the stricken people. Red Cross relief is almost immediately forthcoming—food, clothing, shelter and funds; doctors, nurses and special workers with long experience in handling similar trouble elsewhere.

During the last year, ending June 30, there was an average of four disasters a month in the United States. One hundred and fifty communities in twenty-seven states suffered. The largest and most destructive of these were the tidal wave at Corpus Christi, Texas, and tornadoes in Mississippi, Louisiana, Alabama, Georgia, Ohio, Indiana and Illinois.

In these events of horror 850 persons were killed, 1,500 were injured, 13,000 were made homeless, about 30,000 families needed help, the property loss was nearly \$100,000,000 and almost \$1,000,000 in relief funds, not including emergency supplies was expended.

To the sufferers from all disasters during the year, the American Red Cross sent \$120,000 worth of supplies, 110 Red Cross nurses and seven special relief trains. To meet the needs of the stricken, the organization set up ten relief stations, operated thirty food canteens and as many emergency hospitals. One hundred and twenty-five Red Cross chapters gave disaster relief service.

If disaster ever strikes this town or county, the citizens can be absolutely sure the Red Cross will be right on hand to help them in every way.

## Baby's Dire Peril.

Mother and little Kathryn were upstairs when they heard little sister fall off the couch. Kathryn said: "O, mother, if that baby doesn't stop falling she's going to ruin herself."

## Dogs Taxed According to Size.

In some of the cities of Europe a dog is taxed according to its size—a little tax for a little dog and a big tax for a big dog.

## The "Game" of Life.

Life is like a game of whist. I don't enjoy the game much, but I like to play my cards well and see what will be the end of it.—George Elliot.
